The Style Statement of your Home

Why SuperWin?

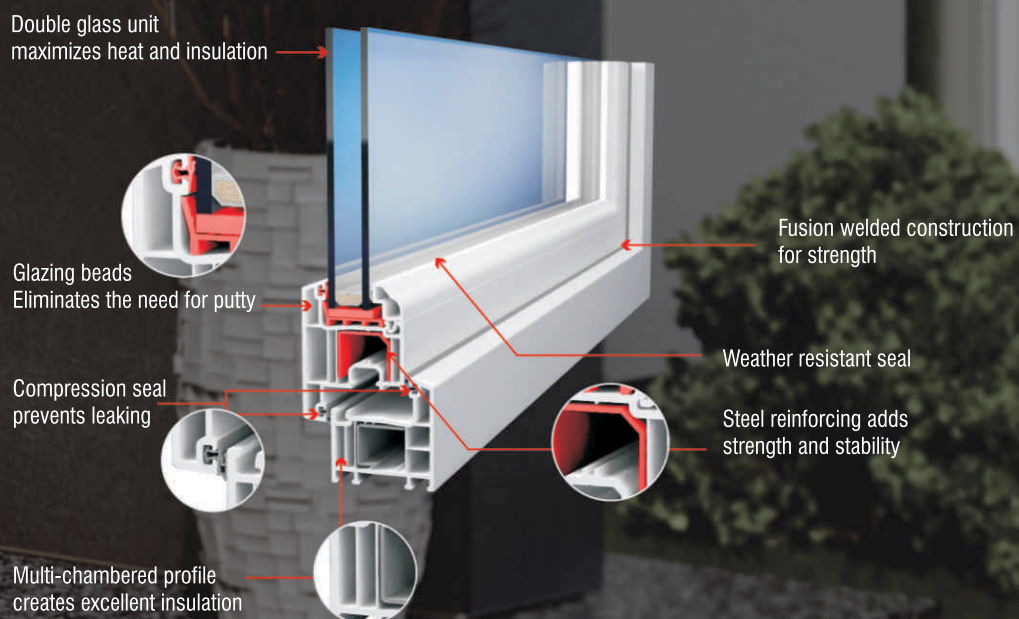

SuperWin Technologies is one of the pioneer in manufacturing UPVC Windows and Doors in Gujarat with advance technology and constant innovation SINCE 2011.

SuperWin UPVC Windows and Doors are the most superior over **Wooden-Aluminium-Steel Windows and Doors**. SuperWin UPVC Windows and Doors are the premium product offering complete range of services include site survey, design selection, fabrication, delivery, installation followed by after sales services. SuperWin is well equipped to manufacture windows which withstand the extreme climate of India.

SuperWin UPVC Windows and Doors provide a perfect balance between energy efficiency and comfortable living. This high-quality energy-efficient UPVC Windows and Door solution improves the quality of life in many ways. SuperWin UPVC Windows and Doors offer excellent thermal and acoustic insulation properties, double glazed Windows and Doors substantially reduce heat loss. You will soon recoup the cost of the double glazing in the money saved from heating bills.

A low maintenance, long-lasting SuperWin UPVC Windows gives your home or building an elegant look that will last for years. No more painting or staining, simply wipe clean and your UPVC Window will look as good as new.

SuperWin believes that Superior Workmanship is the Warranty for Quality.

WINDOWS

SuperWin Windows are like the ornaments for home/offices and are directly exposed to all weather conditions, so they must be leakproof.

Sliding windows

Casement windows

SuperWin Sliding Windows

- » Two or more Sashes(Shutters) slide horizontally on tracks to the left or the right
- » Offer opening up to 50%
- » Sound Insulation up to 50 to 55% with usage of appropriate glass

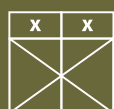

SuperWin Casement Windows

- » Two or more Sashes(Shutters) open horizontally on frame on the left or the right
- » 100% opening provides easy cleaning of the outer Sashes(Shutters) with glass
- » Sound Insulation up to 80 to 85% with usage of appropriate glass

DOORS

SuperWin Doors have great aesthetic, wide range of variety with durable, weather resistance, thermal and noise insulation.

Advance Conceptual Door Systems

**SuperWin Advance Conceptual Door Systems for barrier free access.
These are the most sophisticated systems allowing wide
and beautiful scenic view.**

Lift & Slide Door System

SuperWin Lift & Slide system makes the door sash very strong and enable shutter sizes up to 6 sq.m. and weights up to 350 Kgs per shutter. The Lift and Slide rollers still can slides these heavy shutters smoothly on special Aluminium guide rails. It offers barrier free access to terraces, gardens, courtyards, conference rooms, wherever needed and can also be used just as room dividers.

The space-saving opening of balcony doors with Lift & Slide sashes permits optimum use of space, as no sashes project into the room as compare to Bi-fold door system.

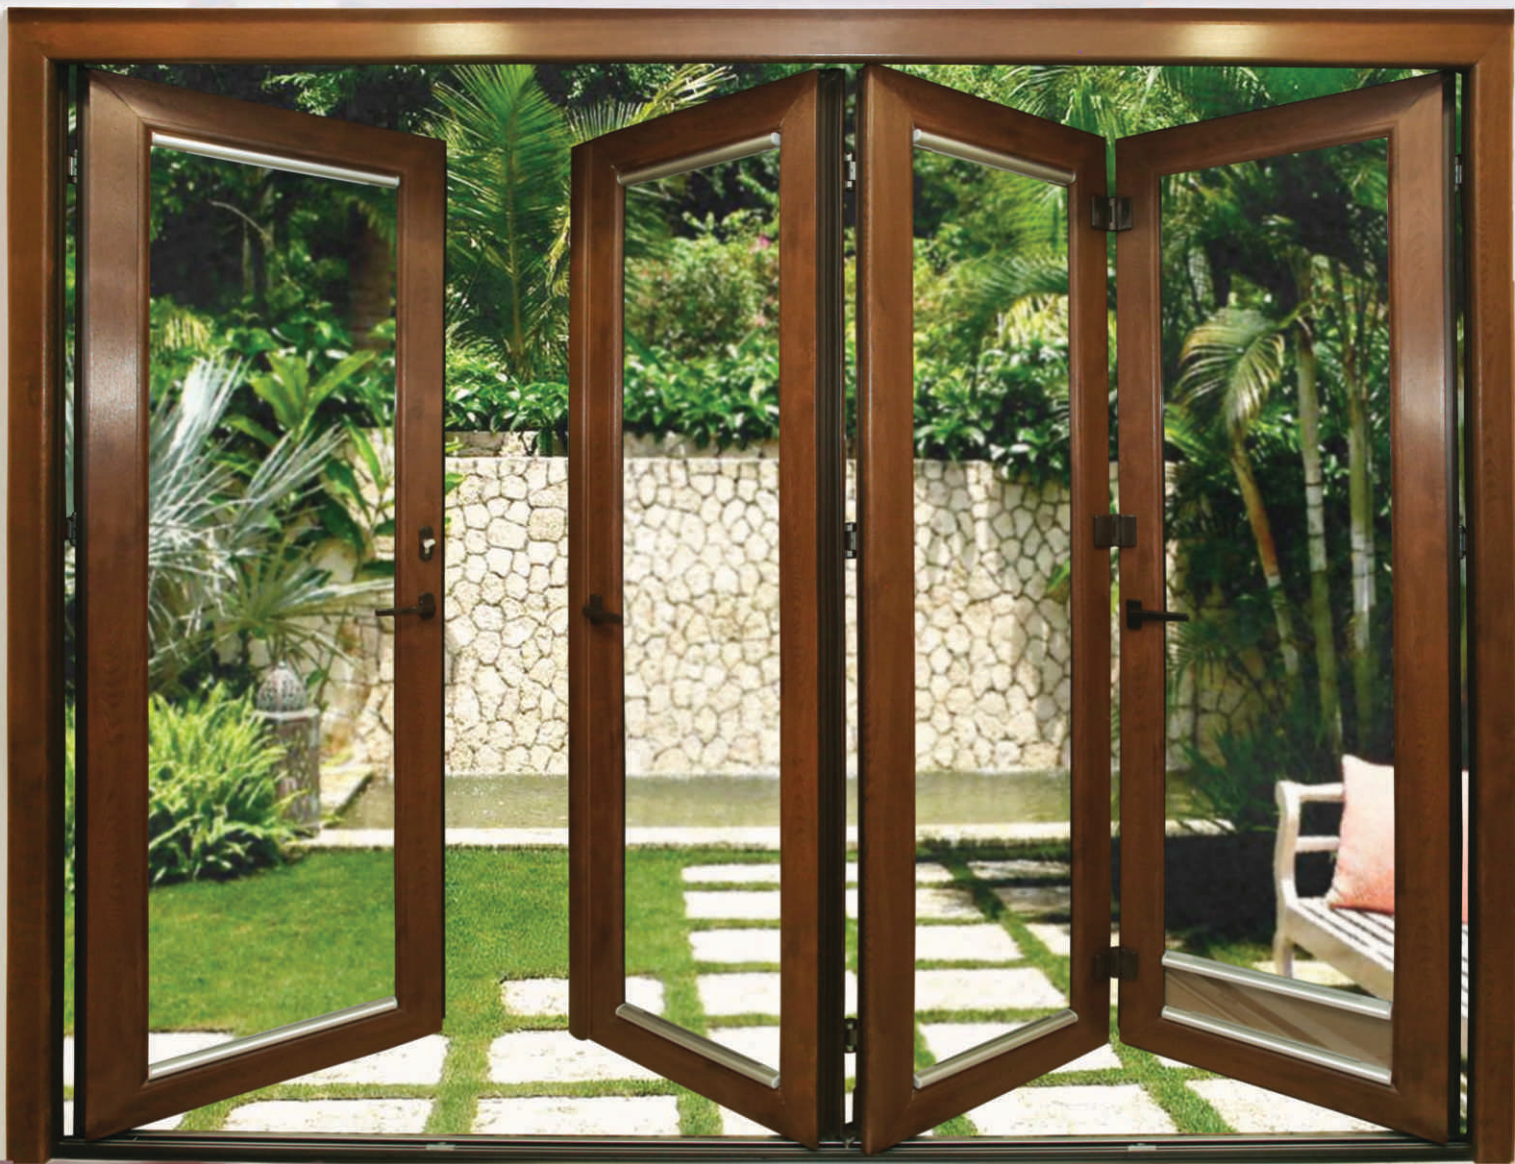

Tilt & Turn Window/Door System

SuperWin Tilt and Turn Window will swing inward when opened in the turn position; alternatively, hinges at the bottom allow it to open inward at the top. Both actions are activated by the turn of a lever, which controls all the mechanics within the frame.

There are great benefits to the two opening positions of the Tilt-Turn Window. The turn position allows ample fresh air to pass into the room; it also facilitates cleaning the window.

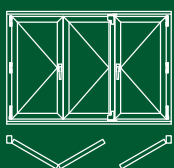

Bi-Fold Door System

The beauty of SuperWin Bi-Fold Door System is that the multiple panels fold up to create an opening that can be as large as the size of the door frame to allow a wide opening, offering unrestricted access and bringing the outside in.

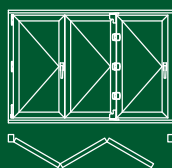

Slide and Fold Doors offer barrier free access to terraces, gardens, conference rooms, wherever needed. These doors come with inward or outward opening options.

Slide and Fold Doors are a sophisticated door system, for large openings, joins multiple sashes in a unique Slide and Fold mechanism which meets the demands of almost any property, enabling you to choose the number of panels to suit your need.
